VEHICLE PROTECTION

vGroup' Lining Kits utilise the latest CAD technology and CNC machines – cutting the required kits and panels from a range of high quality materials including plywood and polypropylene, tailored to the vehicle to protect its residual value.

Our standard offering includes fitment and product warranty.

PLY: ENTRY QUALITY

Protect vehicle interiors from dust, dirt and damage with functional custom fitted ply.

Features

- 3.6mm sides, 6mm floor, tailor-made for vehicle
- Available for CDV, SWB, MWB, LWB, XLWB vehicles
- Protects from dust, dirt and damage
- Protects residual value

**PLY: STANDARD QUALITY**

Protect vehicle interiors from dust, dirt and damage with functional custom fitted ply.

Features

- 6mm sides, 9mm floor and wheel boxes, tailor-made for vehicle
- Available for CDV, SWB, MWB, LWB, XLWB vehicles
- Protects vehicle interior from dust, dirt and damage
- Supplied and fitted by highly trained professionals

**PLY: PREMIUM QUALITY**

Protect vehicle interiors from dust, dirt and damage with functional custom fitted ply.

Features

- 6mm sides, 9mm floor and wheel boxes in Birch, tailor-made for vehicle
- Protects vehicle interior from dust, dirt and damage
- Supplied and fitted by our highly trained professionals

FINESSE BUBBLEBOARD LINING

Bubbleboard lining provides protection from dust, dirt and damage to the vehicle. Constructed from easy to clean recycled material.

Features

- For CDV, SWB, MWB, LWB, XLWB
- Protects vehicle interior from dust, dirt & damage
- Lightweight material
- Easily cleaned

NON-SLIP FLOORING

Durable material protects users items from slippage. Fits all vehicle types.

Features

- Tailor-made for your vehicle
- Available for CDV, SWB, MWB, LWB, XLWB vehicles
- Thicker material to endure higher levels of wear & tear
- Supplied and fitted by our highly trained professionals

POLYPROPYLENE LINING

Protects the vehicle floor from accumulating dirt, dust and damage caused by regular use. Made from a high-quality, durable material that will not harden or crack in extremes of hot and cold.

Features

- Protects vehicle interior from dust, dirt and damage
- Lightweight material
- Made from recycled material
- Easily cleaned

SPEEDLINER

Speedliner is a tough, thick, urethane vmer coating, which is flexible and protects surfaces from day-to-day wear and tear, weathering, corrosion and abrasion.

Features

- Protects from abrasion and corrosion
- Numerous applications
- Usable for metal, aluminium, concrete or fibreglass
- Simple application

BED LINER

Designed to protect the bed of the pick-up from impacts, and resisting most common chemicals including paint, oil, petrol, battery acid and many more.

Made from a high quality, heavy duty polyethylene. Custom moulding fits snugly following the curving lines of the pick-up bed. In most cases uses non drill fastening systems and retains the original tie down hooks.

Features

- Protects from impacts,
- Resists paint, oil, petrol, battery acid and more
- Adjustable to all pick-ups
- High quality material

GRILL

Transform your vehicle with our easy to fit, no drilling or modifications "Raptor" style front grill.

Features

- Lightweight material
- No drilling required
- Easily fitted

BONNET GUARD

Bonnet Guard ensures that exposed surfaces are protected from stones, debris and insects. Light and flexible yet robust and reliable.

Features

- Vehicle specific design
- Tough stabilised acrylic
- Dark smoke, transparent finish

FRONT LOWER PROTECTION BAR

Protect the vehicle from bumps, scrapes and other damage with high quality, durable and easily fitted protection bars. Excellent value for money and great build quality.

Features

- Made from high-grade stainless steel & hand-finished
- Supplied with all fittings and fitting instructions
- Outstanding build quality

SEAT COVER SINGLE

Protect the vehicle's front seats from unwanted stains and damage. Suitable for most vehicles. Side airbag, seat belt and armrest provisions.

Features

- Durable, heavy duty design
- Full protection for the front seats
- Made from of waterproof material

SEAT COVER DOUBLE

Protect the vehicle's front seats from unwanted stains and damage. Suitable for most vehicles. Side airbag, seat belt and armrest provisions.

Features

- Durable, heavy duty design
- Full protection for the front seats
- Made from of waterproof material

TAILORED MOULDED RUBBER MATS

Our moulded rubber mat range is the perfect solution for interior vehicle protection. The mats are made from 100% rubber granulate without the smell. Easy to clean and fully tailored to specific vehicles.

Features

- 100% rubber
- Vanilla scent
- Easy to clean
- Laser measured, fully tailored
- Made in Europe

5MM RUBBER MATS

Protect the vehicle's carpet and its residual value with the fully tailored, heavy-duty 5mm rubber floor mats. The anti-slip granulate backing and anchor fixing ensure the mats will stay where they belong.

Features

- Anti-slip backing
- Suitable for commercial vehicles

INTERIOR RACKING SOLUTIONS

vGroup only fits high quality products from Europe's leading suppliers and manufacturers of roof racks, roof bars, steps and accessories.

BESPOKE INTERIOR RACKING

Simple and effective way to store and organise work tools, components and materials specifically designed for the electrical trade. Turn the van into a mobile workshop.

Available for

- Builder
- Plumber
- Electrician and many more...

COURIER TROLLEY

Simple and effective way to store and organise work tools, components and materials specifically designed for the electrical trade. Turn the van into a mobile workshop.

Features

- Lightweight construction
- Compact & foldable
- Large loading capacity

INTERNAL RACKING SOLUTIONS

Simple and effective way to store and organise work tools, components and materials. Turn the van into a mobile workshop.

Features

- Heavy duty
- Long lasting, strong and durable
- Easy clean

EXTERIOR RACKING SOLUTIONS

With over 15 years' experience in manufacturing and producing commercial vehicle accessories, Rhino can confidently claim to deliver exactly what the end-user is looking for to make their job easier.

ROOF BARS: 2

Durable and easy-to-use racks designed to help transport gear safely, easily and efficiently. Perfect for carrying loads that do not fit in the vehicle.

Features

- Fits to roof rails on the vehicle
- Useful storage of ladders and other equipment
- Assists with loading and removing ladders, reducing risk of injury

ROOF BARS: 3

Durable and easy-to-use racks designed to help transport gear safely, easily and efficiently. Perfect for carrying loads that do not fit in the vehicle.

Features

- Heavy duty
- Long lasting, strong and durable
- Easy clean

EXTERIOR RACKING SOLUTIONS

FULL WIDTH REAR STEPS

The Full Width Rear Step combines a solution for areas surrounding health and safety when stepping in and out of the vehicle.

Features

- Double or triple step
- Available in yellow or black
- With or without reversing sensors

LADDER CLAMPS

SafeClamp® incorporates strength, speed and style to provide a revolutionary ladder clamping system. SafeClamp® uses a composite beam structure and stainless steel anchor hook which offers high strength whilst providing excellent corrosion resistance.

Features

- Easy to use
- Secures ladders to the racking
- Easily fitted

REAR LADDER ROLLER

The Rear Roller System attaches on to the rear Delta Bar and provides an easy way to load and unload onto the bar area whilst protecting the rear of the vehicle. The Rear Roller is available in various widths to accommodate all vehicle sizes.

Features

- Fits to roof bars on the vehicle
- Assists with loading and removing ladders, reducing risk of injury

FULL MODULAR RACK

Durable and easy-to-use racks designed to help transport gear safely, easily and efficiently. Perfect for carrying loads that do not fit in the vehicle.

Features

- Heavy-duty fully welded system
- Includes built-in rear roller

SAFESTOW SYSTEM WITH LADDER

The new SafeStow4 provides you with safe, secure and effortless ladder storage and handling. SafeStow4 is available in four variants, one of which will fit perfectly into the working day.

Features

- Enables safe loading, securing & lifting of ladders
- Stainless steel components
- Constructed from highly robust aluminium alloy
- Available in single and twin ladder configurations

PIPE CARRIER

Built from exceptionally strong yet light in weight anodised aluminium extrusion. Pipe carriers provide an easy and dedicated storage area for long and thin items.

Features

- Available in 2m and 3m
- Fit to roof bars
- Lock provided to keep secure

GLASS FRAILS

A basic frame carrying rack, this system comes without any poling or strapping systems. It is ideal for the safe carriage of window frames or garage doors.

Features

- Safe and secure
- High quality material
- No poling or strapping

TOWING

vGroup works with one of the largest European companies to provide professional, high-end tow bar solutions. Only offering dedicated wiring tow bars as we believe this is the only way to ensure safety for all towing vehicles. Offering single, double, fixed and detachable, we are able to fit your tow bar anywhere in mainland United Kingdom.

CAR FIXED SINGLE ELECTRIC TOWBAR

Ideal for wiring the towed vehicle or caravan road lights, reverse lights, and any interior electrics in the caravan such as the fridge and leisure battery.

Features

- Complete with 7 pin VSK
- Suitable for trailers and cycle carriers

CAR FIXED TWIN ELECTRIC TOWBAR (13 PIN)

Ideal for all towing needs. Powering the lights on a caravan, trailer or cycle carrier, a 13-pin socket can also provide power to the inside of your caravan.

Features

- Complete with 13 pin VSK
- Suitable for caravans trailers and cycle carriers

CAR DETACHABLE TOWBAR WITH SINGLE ELECTRIC

The detachable tow bar offers you all the versatility of the traditional version while only a small part of the tow bar remains visible when detached. This tow bar can be easily detached when not towing.

Features

- Complete with 7 pin VSK
- Suitable for trailers and cycle carriers

TOWING

CAR DETACHABLE TOWBAR WITH TWIN ELECTRIC (13 PIN)

The detachable tow bar offers all the versatility of the traditional version while only a small part of the tow bar remains visible when detached. This tow bar can be easily detached when not towing.

Features

- Suitable for caravans trailers and cycle carriers

LCV TOWBAR SINGLE ELECTRICS

Ideal for light commercial vehicles. Provides the power to lights on either a caravan, trailer or cycle carrier. Great and simple tow bar solution.

Features

- Complete with 13 pin VSK
- Suitable for caravans trailers and cycle carriers

LCV TOWBAR TWIN ELECTRICS

Ideal for light commercial vehicles. Provides the power to lights on either a caravan, trailer or cycle carrier. Great and simple tow bar solution.

Features

- Complete with 13 pin VSK
- Suitable for caravans trailers and cycle carriers

SECURITY

Using only recognised lock manufacturers to give peace of mind and ensure that the vehicle is in safe hands. With over 25 years' experience, vGroup offers a full range of internal and external security solutions.

DEAD LOCK TO SINGLE SIDE LOAD DOOR

Keep belongings secure. Store expensive tools and equipment in vehicles for an extended period safely with armplated deadlocks. Deadlocks are manually engaged by the driver.

Features

- Equivalent to a 5 lever mortice lock
- Vehicle specific
- Supplied and fitted

DOOR DEAD LOCK TO REAR DOOR

Keep belongings secure. Store expensive tools and equipment in vehicles for an extended period safely with armplated deadlocks. Deadlocks are manually engaged by the driver.

Features

- Equivalent to a 5 lever mortice lock
- Vehicle specific
- Supplied and fitted

SLAM LOCK TO SINGLE SIDE LOAD DOOR

Keep belongings safe and enjoy maximum security. Slamlock will automatically lock the vehicle door immediately after it is shut without requiring any further operation by the driver.

Features

- Steel barrel lock
- Locks automatically without use of key
- Industry standard specification
- Vehicle specific
- Supplied and fitted

SLAM LOCK TO REAR DOOR

Keep belongings safe and enjoy maximum security. Slamlock will automatically lock the vehicle door immediately after it is shut without requiring any further operation by the driver.

Features

- Steel barrel lock
- Locks automatically without use of key
- Industry standard specification
- Vehicle specific
- Supplied and fitted

SECURITY

BLANKING PLATES (TWIN DOORS)

Protect rear cabin and belongings from view with custom fitted blanking plates..

Features

- High quality steel
- Blocking out view of load space
- Tailored fit
- Added security against glass breakage and intrusion

BLANKING GRILLS (TAILGATE)

Keep belongings safe with secure blank grilles custom fitted to vehicle tailgate or twin doors.

Features

- High quality steel
- Industry standard specification
- Vehicle specific
- Added security against glass breakage and intrusion

BLANKING PLATES (TAILGATE)

Protect rear cabin and belongings from view with custom fitted blanking plates.

Features

- High quality steel
- Blocking out view of load space
- Tailored fit
- Added security against glass breakage and intrusion

2M LOAD LOCK

Keep your loads secure and avoid loose items causing vehicle damage

Features

- Track to secure items when travelling
- Avoids loose items causing damage to vehicle
- Available in 2m and 3m lengths

BLANKING GRILLS (TWIN DOORS)

Keep belongings safe with secure blank grilles custom fitted to vehicle tailgate or twin doors.

Features

- High quality steel
- Industry standard specification
- Tailored fit
- Added security against glass breakage and intrusion

3M LOAD LOCK

Keep your loads secure and avoid loose items causing vehicle damage

Features

- Track to secure items when travelling
- Avoids loose items causing damage to vehicle
- Available in 2m and 3m lengths

ROLLER SHUTTER

Constructed from ultra-strong extruded aluminium, allows 500KG top loading. Features a high-quality dual action locking mechanism that completely secures the load-area, offering outstanding protection for tools, equipment or valuables.

Features

- Strong aluminium
- Dual locking mechanism
- Lightweight
- Maintenance free

TONNEAU COVER

This fiberglass lid offers increased security without aesthetic compromise. Simply opened with one central handle, which when closed secures the tonneau cover.

Features

- High quality material
- Industry standard specification
- Easy access
- Increased security

ALUMINIUM LID

The 'Outback' chequer-plate tonneau cover is constructed with heavy duty aluminium and stainless steel lock and hinges supported by twin gas struts for easy opening. Rails enable loads to be easily secured.

Features

- Easy access
- Industry standard specification
- Built for all conditions
- High quality aluminium

HARDTOP CANOPY

Equipped with automatic interior LED lights. Thanks to the luxurious vinyl it does not only look stylish but the interior is very easy to maintain. It also comes with integrated 55k capacity roof bars and a spoiler with high level LED brake light.

Features

- Remote central locking
- Cab-high hardtop
- Tinted windows
- Pop-out side windows
- Sliding bulkhead window

SECURITY

TREKDROR

The Armorgard TrekDror is a range of robust, steel tool drawers for vehicles and small spaces. It's available in three different sizes.

Features

- High quality steel
- Three different sizes and stackable

12V SMALL LIGHT BAR – MAGNETIC

Ideal for commercial vehicles. Magnetic mount for secure, easy installation, dust and waterproof. Simple, efficient and long lasting light.

Features

- Secured by solid magnets
- In-cab switch

12V SMALL LIGHT BAR – FIXED & ROTATING

Ideal for commercial vehicles. Easy installation, dust and waterproof. This efficient, long-life light bar comes in various sizes.

Features

- Two rotating warning lights
- In-cab switch

12V MEDIUM LIGHT BAR – FIXED

Ideal for commercial vehicles. Easy installation, dust and waterproof. This efficient, long-life light bar comes in various sizes.

Features

- Two rotating warning lights
- In-cab switch

12V LARGE LIGHT BAR – FIXED

Ideal for commercial vehicles. Easy installation, dust and waterproof. This efficient, long-life light bar comes in various sizes.

Features

- Two rotating warning lights
- In-cab switch

12V AMBER BEACON (MAGNETIC OR FIXED, ROTATING)

Make vehicles instantly more visible in emergency situations. Perfect for use in fog, rain, snow. Durable and bright light. Fixed and magnetic options available.

Features

- Rotating warning lights
- 8 inch high case
- In-cab switch

12V MINI LIGHTBAR

Make vehicles instantly more visible in emergency situations. Perfect for use in fog, rain, snow. Durable and bright light. Fixed and magnetic options available.

Features

- Reflective LED modules
- Quad flash
- Cigarette plug with on/off and flash pattern selection switch (vacuum - magnet only)

INTERNAL STRIP LIGHTS – FIXED)

Equip the vehicle interior with easily fitted internal strip lights. Longer wires are suitable for any model cars.

Features

- 15 inches long
- Two fluorescent tubes
- Manual switch mounted on light

INTERNAL STRIP LIGHTS – MAGNETIC

Equip the vehicle interior with easily fitted internal strip lights. Longer wires are suitable for any model cars.

Features

- 15 inches long
- Two fluorescent tubes
- Manual switch mounted on light

ROOF VENT (WIND ASSIST)

Prevent excessive heat, stale air, and strong odours. Fitted roof vent improves driver productivity, reduces spoilage of goods and increases residual values.

Features

- Provides ventilation
- Minimises condensation and excess humidity
- Strong and durable

ROOF VENT (ELECTRIC)

Prevent excessive heat, stale air, and strong odours. Fitted roof vent improves driver productivity, reduces spoilage of goods and increases residual values.

Features

- Professional ventilation
- Minimises condensation and excess humidity
- Strong and durable

FLOOR VENT

Prevent excessive heat, stale air, and strong odours. Fitted roof vent improves driver productivity, reduces spoilage of goods and increases residual values.

Features

- Professional ventilation
- Minimises condensation and excess humidity
- Strong and durable

4.5m: SVBI/P1/CV/LEDFLASHER/4.5 9.5m: SVBI/P1/CV/LEDFLASHER/9.5

COMMERCIAL AMBER STROBE

Ultra bright LEDs to provide a consistent & enhanced warning performance. With 4.5 or 9.5m long cables.

Features

- Multi-voltage operation
- Ultra bright LEDs
- Die-cast aluminium base for durability

SVBI/P1/CV/LEDSBEACON

ROTATING COMMERCIAL AMBER LIGHT

The amber rotating beacon, with durable polycarbonate housing and IP67 rating will enhance visibility in challenging condition.

Features

- Reverse polarity protection
- Built-in memory function
- Tough polycarbonate lens with UV resistance

SVBI/P1/CV/LED/MINIBAR

COMMERCIAL AMBER LIGHT BAR

The commercial amber light bar, with durable polycarbonate housing and IP66 rating will enhance visibility in challenging conditions.

Features

- Multi-voltage operation
- 72 ultra bright LEDs
- Cable included

FAQ

PLATFORMS

vGroup offer more than just physical products, there is also a range of websites, apps and online solutions available to support customers and also the vehicle end user. Our platforms function to reduce either labour, plastic and paper usage, or to increase customer engagement, communication and brand awareness.

A number of these solutions are available to OBL, please ask our team for more information.

LINKING THE INDUSTRY TOGETHER

vLink

- New online ordering platform
- Enhanced customer journey through improved user experience
- One log in, one check out, one platform
- User friendly platform with images and descriptions

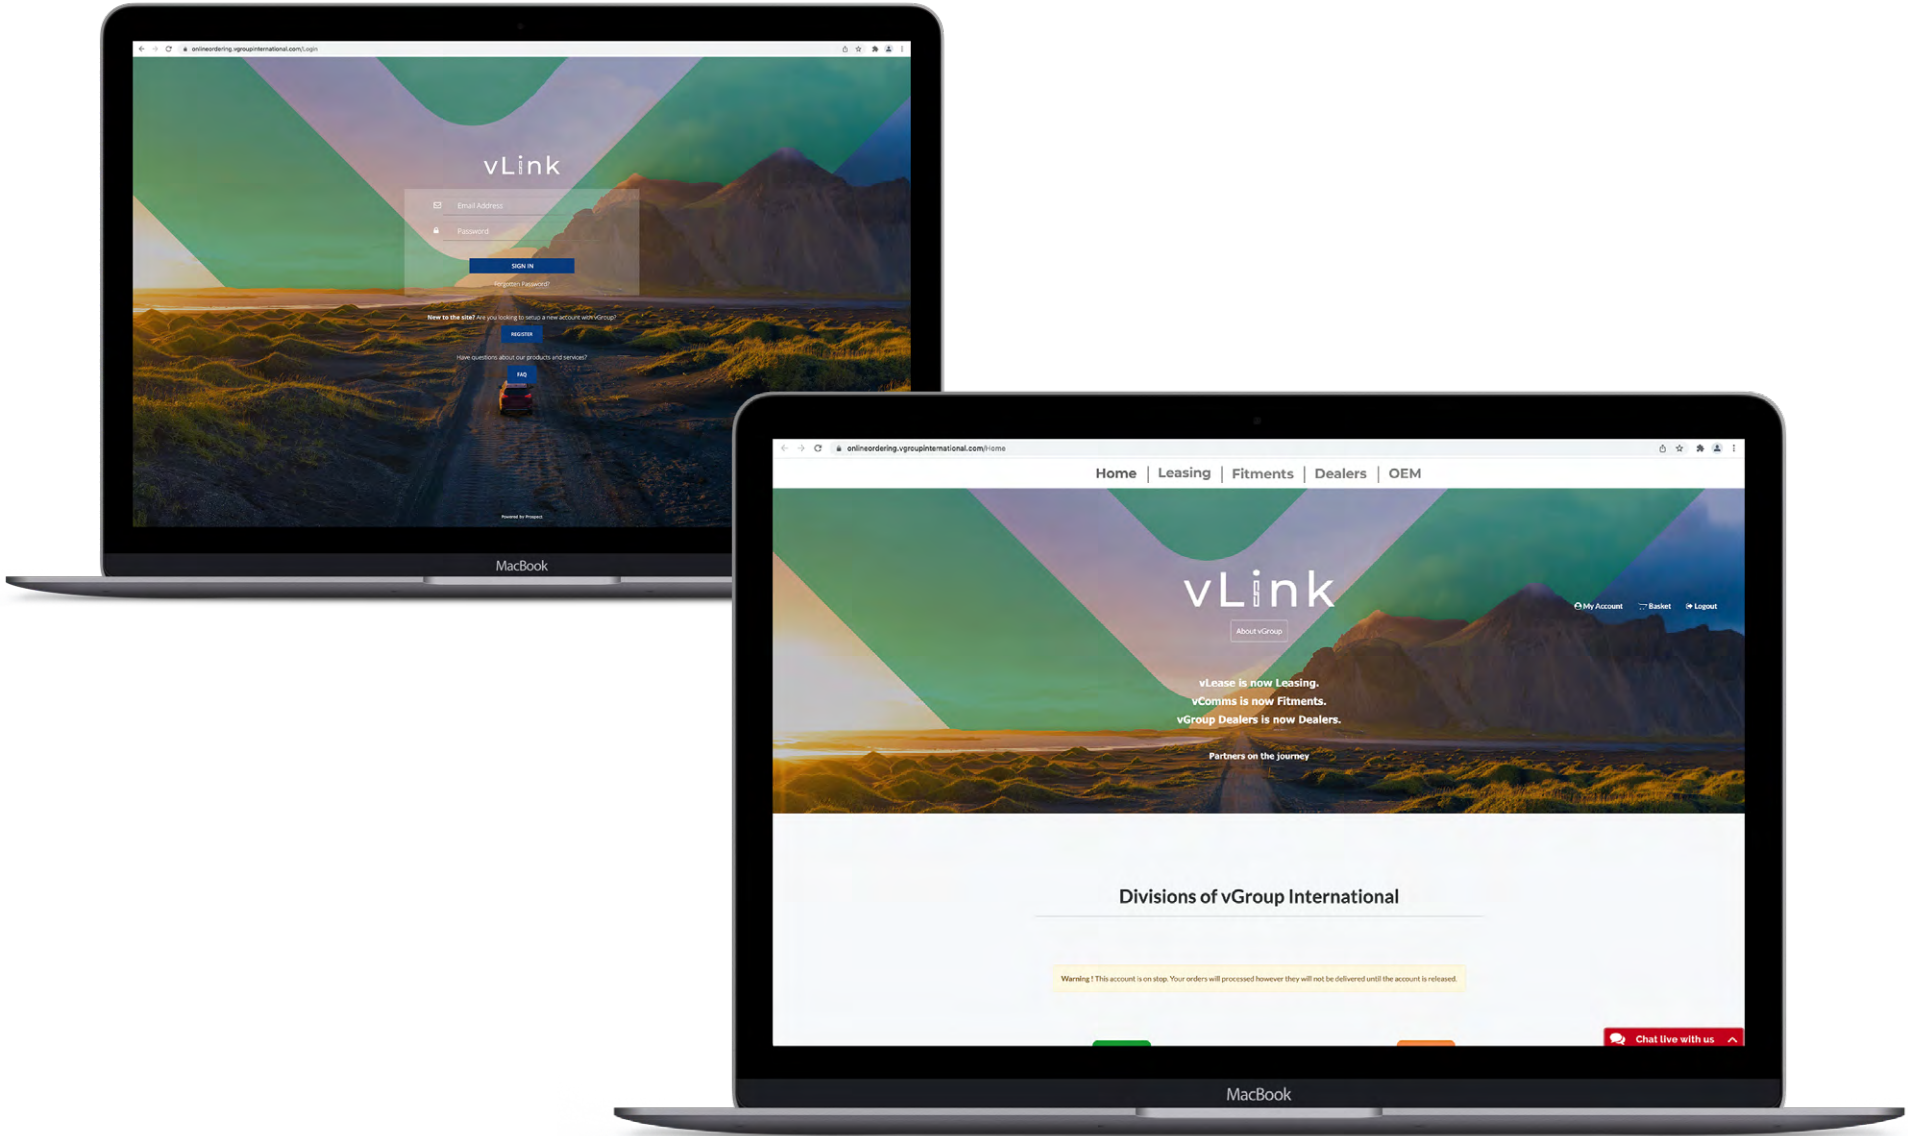

vLink is our new online ordering platform to link all of our brands together. vLink is a major differentiator within our sector and further sets us apart from current and future competitors. It delivers an improved customer journey and improvements in the automation of orders will reduce the cost of trading with vGroup International.

vLink will improve customer satisfaction with the improvements it brings to the customer journey. To reduce customer admin time we have reduced the amount of clicks from start of order to checkout. Users now only have to log in and out of different platforms, they can

now order everything within one log in and under one checkout. Product images are now a key highlight of vLink as customers can now see what products they are ordering and what the packs include. Overall, vLink is one step closer to becoming an E-Commerce website, it is more user friendly and has become more familiar to use to our customers.

In the next feature, vLink will be our own online catalogue open to any customer and any route to market as a full scale eCommerce platform with category management tabs.

To find out more information, contact sales@vgroupinternational.com.

MATS FOR YOU, BY YOU.

MATAPP by vLink

- Ultimate solution for bespoke floor and boot mats
- Perfectly suited to both dealer and retail environments
- Exceptional handover experience without holding stocks
- Cross-platform compatible application
- Distributor and retailer dashboard to manage products and orders

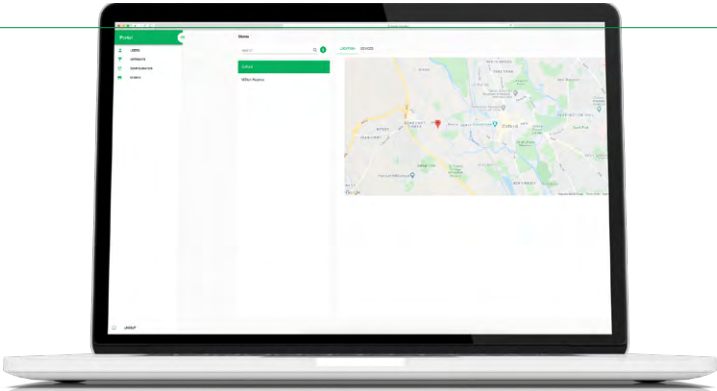

'MATAPP by vLink' has been developed to offer a revolutionary way to purchase bespoke, tailored car mats through retailers and dealerships. The platform helps stores and branches reduce stock levels, whilst providing an exceptional customer experience for end users.

'MyMat' gives access to store insights, where retailers and dealers can see which locations are best performing. Setting up products and configurations centrally and managing the platform from one location is an invaluable tool for network wide rollout. The application has been

designed with digital 'KIOSK' terminals in mind, but also works seamlessly across computers, tablet and mobile phones.

The platform will strengthen vGroup's relationship with retailers and dealerships, whilst showcasing manufacturing capabilities and implementing JIT deliveries without own, dedicated fleet. Multiple income streams are key for business growth and sustainability, therefore the next phase will offer products from our travel and breakdown range.

To find out more information, contact sales@vgroupinternational.com.

THE ULTIMATE QR CODE SOLUTION.

QRS by vLink

- Easy one stop shop for all driver needs
- Supporting the 4th industrial revolution, Connectivity
- Dynamic updates, giving the driver the most up to date data
- Reduce plastic and paper without impacting the driver experience
- Improved environmental impact

'vScan', the QR Code platform delivers a dynamic way for leasing companies to communicate with end users. It enables users to top up their safety kits, access in-life services and find contact information.

The digital solution can be updated at any time, information to driver is always relevant. The platform offers an opportunity to upsell to more safety items, providing additional rebate opportunity for customers. 'vScan' aims to reduce overall stock risks, updating details online

to eradicate obsolescence. Finally, thanks to 'vScan', the number of items in packs can be reduced through consolidation, money and material saving resulting in improved environmental impact and better driver experience. Smarter products deliver better pricing and stronger customer experience.

For vGroup, the platform will reduce paper and plastic usage through consolidating marketing assets in packs and reduce labour on requesting stock replenishments.

ONE STOP SHOP FOR ALL COMMERCIAL VEHICLE SERVICES.

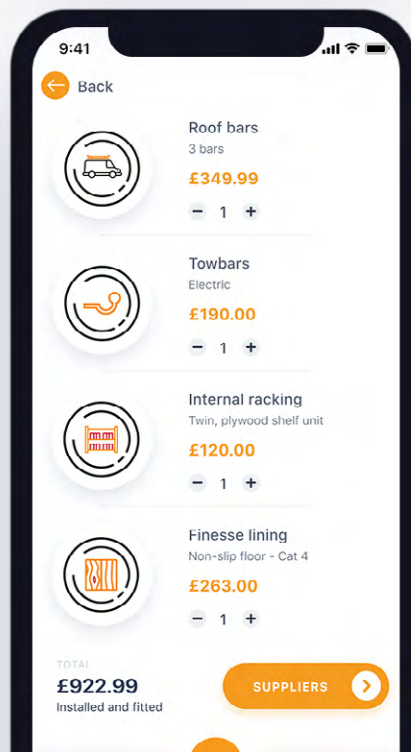

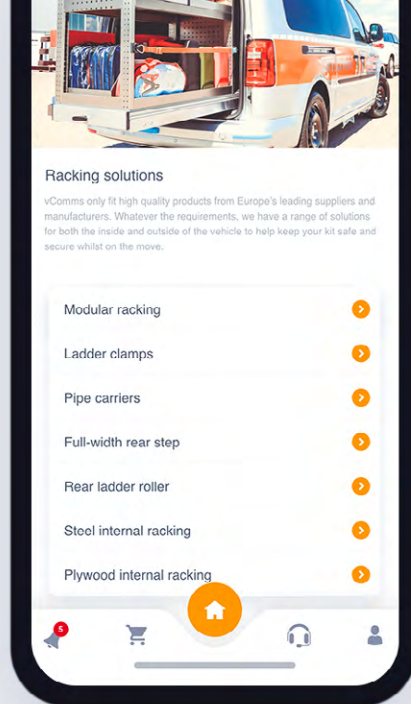

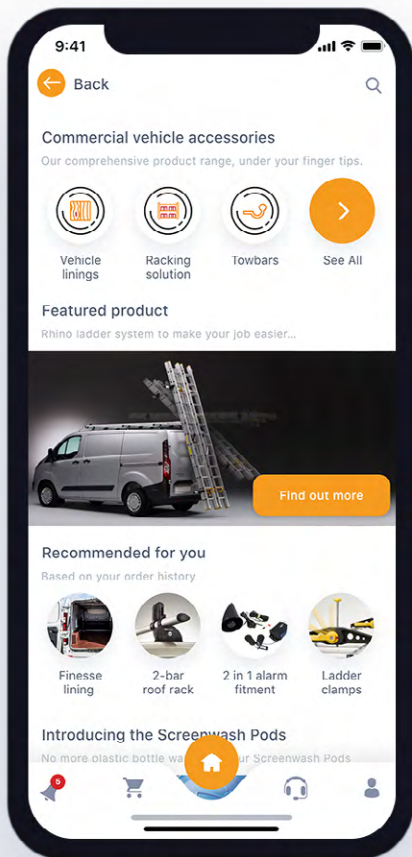

FITMENT by vLink

- One stop shop for commercial vehicle services
- Managing installers and fitters
- Live updates on projects and jobs
- Route management and planning
- Built-in image gallery

We have developed an application to manage fitments in a more efficient way through installers and fitters. The application focuses on jobs and gives us live updated throughout the process. The built-in image library helps us establish a solution to offer a consistent quality of fitments across multiple locations. The FITMENT application is used mainly for internal purposes to reduce labour and to offer an enhanced customer service for our customers.

The next phase of the application will feature a one stop commercial vehicle shop for all customers with integrated calendar, invoice database and digital signature function.

To find out more information, contact sales@vgroupinternational.com.

BESPOKE SOLUTION FOR EVERY CUSTOMER.

eCommerce Shops

- Developed, run and managed by the vGroup eCommerce team
- Bespoke branding
- Customer product listing
- Own customer service team
- Orders are being fulfilled by vGroup

vGroup can develop, design and deliver custom e-commerce shops for your brand and business. Filled with custom, pre-selected products we introduce a channel where your end-users and customers can order vGroup products for themselves.

Working with the industry's best, we can offer you this digital solution free of charge.

To find out more information, contact sales@vgroupinternational.com.

SOLVING CHALLENGES FOR PDI CENTRES AND DEALERSHIPS, NATIONWIDE.

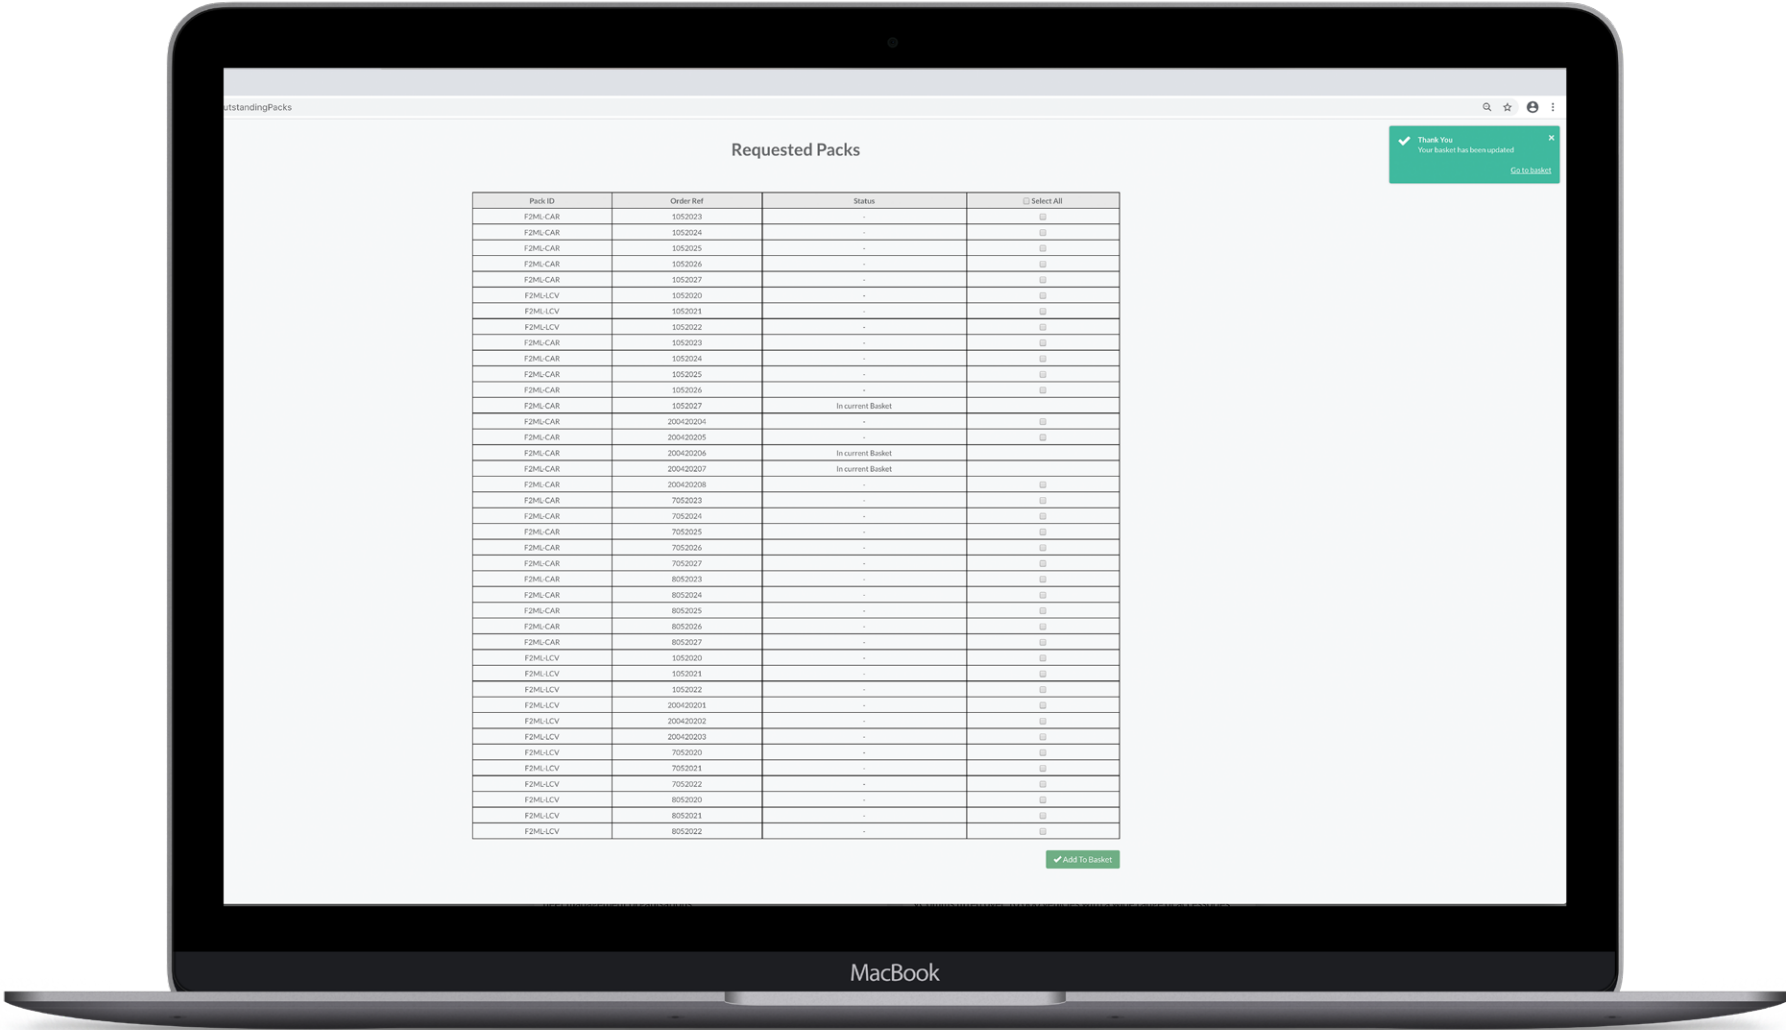

vSupply

- Tracking orders through an online portal
- Less touch points for driver packs
- Less stock to be held at site at all times
- Improvement on labour time
- Sustainable solution for PDI Centre and Dealership growth

More dealers are using PDI centres to manage the vehicles and fit the packs and PDI centres are seeing increased stock, storage and labour needs. In order to develop our partnerships, vGroup developed the 'vSupply' solution.

'vSupply' is an online portal where individual PDI centres can see what packs have been ordered to come to their sites, whilst providing a PDI log in to access the order bank and call off ordered packs in line with work schedules. vGroup can use the pending order lists to build an 'order bank' for production for better future estimations.

To find out more information, contact sales@vgroupinternational.com

CONNECTING THE VEHICLE LEASING COMMUNITY.

Ebbon Dacs Integration

- More than 2,000 fleet dealers and groups rely on Leaselink
- #1 fleet eProcurement solution
- Improve efficiency
- Over 200,000 vehicles are ordered through the Leaselink
- Complete integration

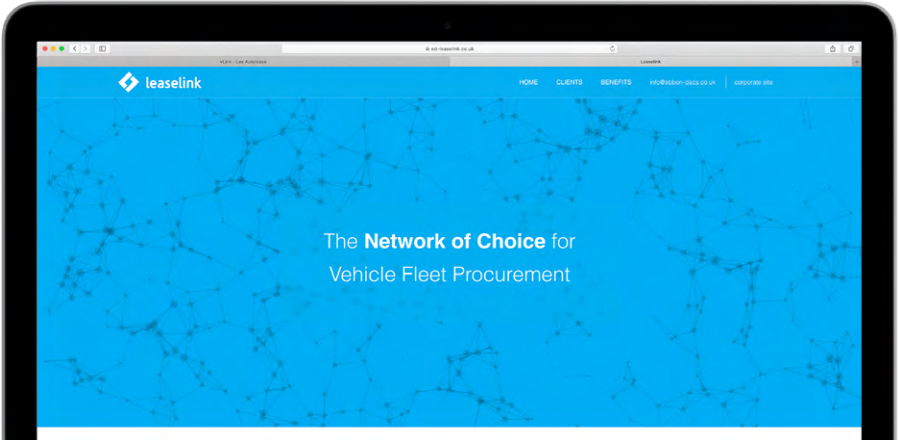

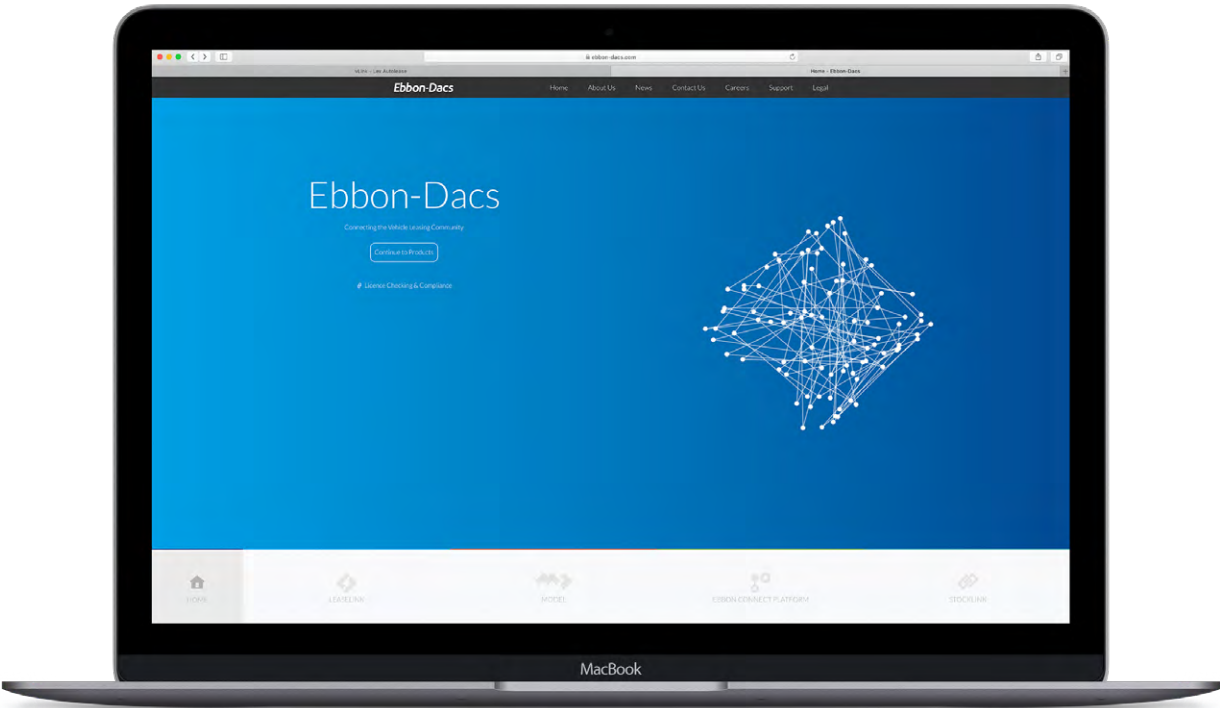

The Ebbon Dacs Integration allows for a more automatic pack selection process for leasing and dealership customers. Using this integration, the dealer is not able to proceed to delivery stage of vehicle unless a pack has been ordered, which delivers a 100% pack penetration in vehicles where a pack is requested by the leasing company. This will secure rebates for leasing companies and avoid dealer selecting incorrect pack or envelope option to ensure driver always has the correct details.

The integration reduces clicks from log in to order

completion and puts the responsibility of pack selection on the leasing company or vGroup. The integration gives access for leasing company to include the pack into the tCard in Leaselink.

When the dealer gets to the stage when the vehicle is in stock, a link will appear in Leaselink that forwards the dealer to the prepopulated pack order page. The dealer only needs to confirm a couple of elements such as make and model of the vehicle, then push into the basket. Thus reducing the overall labour to the dealer.
